### **Under 10s**

At 14.00 the under 10s Competition was under way. This time we had 14 teams all who had a good chance of winning. Again, each team member had three practice shots and three scoring shots. As the teams finished, were they going to be the under 10s Archery champions for 2008? Well let's see who had done enough to win the title this year.

### **Under 11s**

The time now was 15.30. The under 11s were ready to start and the Archery Leaders were ready to go home but as the under 11s had turned up, the least we could do was to let them have their chance.

12 teams started the last competition. Could some of the packs that had come so close in the other two stages that afternoon rally round and do any better? You bet they could and in 2nd. place we had three teams all on 48 points. So we had a tie break to see who would come 2nd. 3rd. and 4th. The cub who had the highest score from each of the three teams had another 3 arrows to decide their final places and here is the final results of the day.
